A photograph of a glass bottle manufacturing factory. The scene is filled with rows of glowing, orange-red glass bottles in various stages of production. The bottles are moving along a conveyor belt system. In the background, there is complex industrial machinery, including large metal structures and mechanical arms. The lighting is dramatic, with the primary light source being the heat of the molten glass, creating a warm, industrial atmosphere. A prominent yellow banner with white text is overlaid across the middle of the image.
