

Science of Brewing Operations

Elevate your brewing skills

Are you a brewer looking to deepen your craft? Designed for brewers with no formal brewing science training, Science of Brewing Operations short course includes 60 hours of tailored content and access to the CIBD's 80-hour General Certificate of Brewing, with the opportunity to earn certification upon completion of the CIBD exam.

Gain insights into brewing operations, safety, hygiene, engineering, and environmental management, while exploring the science of craft brewing.
